Guide demo at MPI 2009 World Education Conference

After-hours cocktail reception

At 2009 ASAE Expo in Toronto

## MOTORCOACH CHECKLIST

The truck's presence at your event is meant to generate not just awareness but enthusiasm for your member service-oriented online buyers guide or e-news brief. It's also a powerful visual for drawing exhibitors and advertisers to see your digital publications as a new way to build relationships with your members. With two kiosks stationed alongside the truck, members and exhibitors can demo your digital publications live on the show floor. After the show floor closes, the truck becomes a conversation-starting backdrop for cocktail receptions and other VIP gatherings.
